

With over 50 years of serving the industrial and mobile fluid power markets, FSC is your preferred system solution provider in the midwest. Additionally, we provide the most comprehensive hydraulic and engineering service and repair in the state!

## Company Overview

You can rely on FSC in any dimension of fluid power and hydraulic controls: broad product availability, efficient distribution, precision manufacturing, and responsive service and repair. **Nothing Can Stop You Now** when we provide you with high-level support in these areas:

**Distribution** of hydraulic, pneumatic and electrical components. Representing a complete line of respected manufacturers, providing quality products and services since 1970.

**Engineering & Manufacturing** of custom hydraulic power units and systems, manifold assemblies, control panels and electronic controls.

**Service and Repair** of all brands of pumps, motors, cylinders, and other componentry. This includes supporting these products with diagnostic equipment, data acquisition, system start-up support, troubleshooting, and on-site repair.

**Hose Assembly** built to customer specifications at both locations.

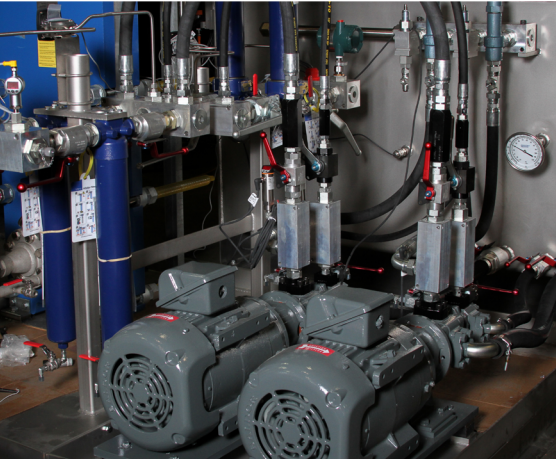

## Engineered Applications

### Mobile

Our approach to serving the OEM and Mobile Fluid Power markets is to work with our customers to determine their exact needs and requirements. We pride ourselves on delivering high quality, long lasting, durable solutions that exceed customer expectations. If it has wheels or tracks, we have the expertise to drive it forward.

### Industrial

Our engineers and designers work closely with a wide range of local industries, including paper, foundries, and product processing. We provide reliable and efficient engineered solutions, both for new projects and upgrades. What sets us apart is our ability to meet their needs without disrupting busy production schedules, ensuring seamless integration.

## Products

Fluid System Components has developed one of the strongest product offerings in the fluid power industry. Our warehouses in the Green Bay and Milwaukee areas provide fast service throughout the state of Wisconsin and the Upper Peninsula of Michigan.

We are proud of the strong alliances that we have with our manufacturers. A full list of product lines is available on our website.
